Rules

1. Maximum of 8 per team with only 6 on the rope at each pull.
2. No gloves please - bare hands only, no spikes or studded shoes.
3. Teams will toss for ends.
4. The referee will ask both teams if they are 'ready' and then ask teams to 'pick up the rope', followed by the instruction to 'take the strain'.
5. No locking of the rope, using a palm grip only. The rope is to be held taut at waist level until the referee's start signal.
6. Only the anchor can keep the rope below belt height for safety reasons.
7. The referee will signal 'steady' followed by 'pull'.

During the Contest

1. There should be no sitting, touching the ground other than with feet, changing the level of the rope, no passing the rope between hands ('climbing'), rowing (quickly sitting on the ground between rhythmic pulling), or other un-gentlemanly conduct.
2. Infringements will be noted by 'first caution' and 'final caution' followed by disqualification. Infringement by both teams may lead to a no pull being declared.

The Conclusion

1. The winning team will pull the marker tape over the centre point, without disqualification through infringement as determined by the referee.
2. Teams will compete for a best of 3, with a short break between pulls and a change of ends.
